About Leadership Fort Worth

Since its inception in 1972, Leadership Fort Worth has been committed to building a stronger Fort Worth by creating meaningful connections through our programs and events based on the principle of Community Trusteeship.

Community Trusteeship involves holding the entire community in trust, or taking responsibility for, and acting on behalf of, the common good. In the best of circumstances, Community Trusteeship means that decisions concerning the community benefit each member of that community. At the very least, the decisions do not worsen the position of any member of the community.

Listen, Care and Lead form the foundation for skill development in our programs. In addition, we provide opportunities for program participants to develop in the areas of adaptive leadership, collaboration/team-building, relationship building, networking, project management, presentation/ communication skills and more. Leadership Fort Worth is committed to serving as a key part of our city's pipeline of leadership talent at all levels.

LeadershipClass, est. 1973 — Gathers established leaders for training in collaboration to address significant issues.

LeadingEdge, est. 2009 — Builds capacity, connections and community trusteeship among the city's emerging leaders while also teaching leadership techniques and decision-making processes.

LeaderKids, est. 1996 — Provides 8th graders a way to develop leadership abilities through community involvement.

LeaderPrime, est. 2016 — Offers high-level civic orientation and engagement for the newest CEOs and C-suite executives in Fort Worth and the surrounding area.

Every sponsorship helps us work toward our vision for a community that allows every person to become a leader and serve the greater good. We appreciate your support of Leadership Fort Worth and investment in community leaders for generations to come, especially as we celebrate 50 years of providing Fort Worth with diverse and enlightened leaders!

With Gratitude,
